WATER PARKS & SPLASH PARKS

BRINING FUN TO KIDS ALL OVER AUSTRALIA

We're proud to say we have installed Splash Parks in most remote communities of Far North Queensland. These parks have not only provided a safe area for children to escape the heat and crocodiles but also have had a positive impact with several health benefits.

Our Water Park and Splash Park expertise has taken us all over Australia, building for luxury holiday locations in NSW and VIC and for local council public facilities in QLD from Brisbane to the Tip of Australia.

The satisfaction of seeing the children enjoy the water slides, large tipping buckets of water and the endless interactive water play fun is definitely rewarding at the completion of the job.

LUXURY DESIGN & CONSTRUCT OF CONCRETE SWIMMING POOLS

DELIVERING PURE LUXURY

Our experience has taught us that customers are searching for unique pool designs to integrate seamlessly with the home and lifestyle. We tailor each project to our customers' needs and budget and explore all avenues to deliver a Lifestyle Pool people have come to expect from us. We only install the highest quality proven finishes and reputable equipment from our trusted suppliers, warranted by us.

Led by director Rick May each project is completed with discipline to the highest standard and is built in accordance with our "completion on customer satisfaction" policy. Working with Australia's brightest engineers allows us to take on your projects in the most difficult sites whether it be overhanging a cliff, on a building roof top or a luxury indoor pool. Our multi-disciplinary team allows us to run the project from the pool and landscape design stage all the way through to regular pool maintenance years after the completion of a project. Our high customer return rate and a portfolio of immaculate projects is a testament to our team and philosophy of pure customer satisfaction.

RESORT POOLS, PUBLIC POOLS AND AQUATIC CENTRES

EXPERIENCE IS WHAT COUNTS

You won't find a more dedicated team with experience in delivering quality aquatic projects ranging from public Olympic pools to multi-functional aquatic centres. Some of our past projects have required full refurbishments of historical facilities to meet Heritage listings strict guidelines.

Kirratech teams know how to deliver quality projects, in a timely and professional manner. With our team of industry trained professionals, we have expanded from Cairns North Queensland to now delivering aquatic projects nationally. From major Australian cities to the remotest areas in Australia. No location too far or landscape too difficult.

Our portfolio of completed projects show innovation and problem solving for complex design issues bringing state of the art aquatic centres to life. Hydro-therapy pools, hotel and resort pools, public and school pools as well as major refurbishments are all within our scope of expertise.

ABOUT US

ABOUT US

Proud to be Cairns largest commercial swimming pool builders. We specialise in designing unique luxury swimming pools as well as state of the art large scale aquatic centres.

The owner Rick May is constantly pushing the boundaries with the latest hydraulic design and technology in order to deliver an easy maintenance swimming pool, giving customers a true luxury product. Kirratech Lifestyle Pools are well known for constructing quality commercial projects including Fina approved 50m and 25m pools for several of Australia's local councils.

Our diversely skilled team also design and construct Water Parks and Splash Parks/Pads across Australia including remote indigenous communities.

“Our growth has primarily stemmed from word-of-mouth recommendations. We're proud to say our loyal customers have often built pools with us more than once. That's the 100% satisfaction we will always leave our customers with”

MEET THE TEAM

Director – Rick May

Hey, I'm Rick May, I am born and raised in Cairns and have been a part of the pool industry for over 30 years. After becoming the director of Kirratech Lifestyle Pools in 2000 I've expanded and developed Kirratech to the large-scale commercial construction business it is today.

I have a strong belief that attention to detail is the key to success and a job completion hinges on the customer being satisfied.

Business Director by day drag racer and car fanatic by night. If I'm not racing for Mayhem Drag Team, I'm out on the lake or quad riding with my mates.

"Business can be a battle, but when you learn to stop fighting and focus on maintaining and forming relationships business becomes more about the people you interact with and achieving satisfaction from the completion of a project and less about monetary values" – Rick May

Business Manager – Nikki May

Hi, I'm Nikki May, I'm a born and raised Brisby girl, but I have been living in the Cairns district for over 25 years. I have recently taken over the responsibility of Business Manager for Kiratesh. With 30 plus years' experience in business administration some might say I've been preparing for this role for a while.

In my spare time I enjoy tapping into my creative roots which can range from fashion design to interior artistic expression.

I am grateful to work with a team full of such great comradery. If I could make one suggestion it would be to implement a 'bring your dog to work' day.

Administration Director - Nikita Zammataro

Hey, I'm Nikita, I was born and raised in Mossman to a large Italian family with 3 brothers, so communicating with males has been a skill I have developed from a young age. I've had extensive experience in accounts management as I began working for my family business in Mossman, Zammataro Plumbing at a young age and let's just say I've picked up some tricks of the trade along the way.

After a long day's work, the best thing is coming home to my little pug Quad. If Nikki petitioned to have "bring your dog to work day" let's just say I wouldn't hesitate to sign it.

Maintenance Manager - Jeff Colyer

Hey, I'm Jeff, I'm a homegrown Cairns boy, and the longest employed member of Kiratesh. I've been part of the team for over 20 years. My role has developed and expanded over the years to now being the Electrical technician and Maintenance Workshop Manager. I'm known to be Mr allrounder, from complicated pool equipment installation to Saturday morning in the showroom.

I love going camping, fossicking and surfing but most of all I love spending time with my two beautiful daughters.

I believe that the true test of a man's character is what he does when no one is watching.

Construction Manager - Bryan Wattingham

Hey, I'm Bryan, my role is to manage and run our commercial projects along with the directions of Rick. I most recently managed the Tobruk Memorial Baths Townsville redevelopment.

I enjoy metal detecting and driving my old Mitsubishi Triton. The boys say I come up with some interesting theories and ideas but hey sometimes they even work, which is a bonus. I think I could have been a crusty demons rider in my past life because the fact that I haven't broken any limbs on a bike must be a natural born talent.

Construction Supervisor - Mitchell Hall

Hey, I'm Mitch, I have been living on the Atherton Tablelands and Cairns my entire life and have been working with Rick and the boys for almost 7 years. I started as a concreter in the construction team but over the years I transitioned to a construction supervisor where I now manages a range of staff and tasks.

I love focusing on developing my fitness as it allows me to tackle new physical challenges and go on adventures to some amazing natural wonders of North Queensland. Though on a nice clear day there's nothing better than taking my road bike for a spin.

Pool Builder - Rangi

Hey, I'm Rangi, I'm a pool building all-rounder. Throughout a project, it's likely that I will be involved in pretty much all stages from concreting to tiling and even the equipment clean-up at the end. Pool building is in my veins. When we aren't doing projects, you will find me at our warehouse in Cairns prepping for the next challenge.

When I'm not at work I enjoy cracking a cold one with the boys, fishing and spending time with my young fellas. This crew is my family away from home, I'm super lucky they are such a good group of blokes.

OVERVIEW

We provide service and repairs to remote areas including Thursday Island, Bamaga, Karumba, Carpentaria Shire and Ethridge Shire. As well as the entire Cairns regional district

MISSION STATEMENT

The Kirratech Brand's mission is to design and build state of the art aquatic facilities and to deliver an experience that our clients enjoy. We love what we do, and we want the journey of building your aquatic facility to be rewarding.

Here at Kirratech we value integrity, customer experience, teamwork and quality. Therefore, we strive to ensure that each project is not only done to the highest standard but that the customer is satisfied with the product and their experience.

We recognise every single client is a future positive reference. Our business is directly shaped on the input we receive from our customers.

No location is too remote, and no site is too difficult. We have a proven track record of building on difficult terrain and in some of the remotest locations in Australia. So, no matter the projects' location we can and will deliver.

After the completion of a project our service doesn't stop there, we also offer regular maintenance plans and have an experienced team dedicated to maintenance and repairs with all leading brands of equipment.
